

# "If wars can be started by lies, peace can be started by truth."

evidence: wasnt that big a deal.

pandemic was just boring. everyone just wants fun.

## trial:

judge: is there anything else you could have done that would have avoided this

adnan: just dont care. dont use electronic.

all miscommunication was over wifi.

judge: why do you think this happened

adnan: culture comes from the top. charlie munger says cut off toxic people. it makes sense.

judge: so you admit you were toxic

adnan: maybe. a little yeah.

judge: so were they right to cut you off?

adnan: yeah i guess. with the information they had.

rena: ew

court: is this guy a retard?

court: off with his head!

---

judge: do you think anyone will understand how much you like rena?

adnan: no

judge: do you think it justifies anytihng youve done?

adnan: no

judge: do you think she just wants to be happy and have fun?

adnan: yeah

judge: do you think rena wants a guy that likes her or just wants a distant person who cares about something else?

adnan: cats like catnip. i like rena.

court: ew

rena: *proejctile vomits all over the ceiling*

court: off with his head!

judge: do you know why rena liked you in the first place?

adnan: yeah, i didnt give a shit. i was dated 3 girls when i met her. and she kept ignoring me so i just sent her retarded 4chan jokes and she laughed.

adnan's friend: bro if you care then youre fucked you gotta be ice cold!

adnan: yeah i fucking know but i did that, and i wanted to figure shit out but now i know everythings a miracle and a mystery and just be retarded

court: ew

therapist: thats not true!

adnan: well people don't give a shit about anything, they just want life to be seinfeld and so I'm george the architect and kramer the kooky nut job and elaine can buttfuck a rhino for all i care

court: look hes violent

court: off with his head!

adnan: shut the fuck up. im trying to say the reason we have war and famine and disease is because people just think that their autopilot fucking clown cunt dick defense mechanisms are blessed by god. like Yahweh the almighty speaks through your ick. Everyone treats everyone like dogshit. The whole world is a god damn child and they all talk shit about everything. Every race looks down on all others. Everyone is just ironic and sarcastic and inauthentic as fuck. No one ever takes a risk. No one ever tries to be real or to think critically. They just open their fucking apps and distract themselves. They don't try to change fate. They just keep trying to get lucky. They dont try. No one gives a damn about anything except "What should i wear tomorrow"?

No one has any passion. They are all dead inside. They have that glazed over eye look like a sedated animal on a farm. They dont burn and thirst for seeing things that no one else has ever explored.

Maybe its okay to get angry and fuck society up. Maybe i dont want to follow the law, because I'm going to bomb the white house and I'm going make a school to recruit 2.5 BILLION kids to my ARMY and fucking NUKE muhammad bin SALMan because the real enemy was not any of you, it was the PRECEDENT. it was the very FABRIC of society that everyone accepts.

Why is there war? Look in the mirror fucker, its because we all have done NOTHING.

IM GEROGE COSTANZA MOTHER FUCKER.

maybe i just want to jostle you fuckers out of your AUTOPILOT do the same shit everyday attitude.

I cant scare you. Im in arizona god damn niggars.

I built this in 2 days. I'm trying to make 1 billion new scientists. Technicians who can maintain the machines using their hands who are going to make \$150k. 1 billion new hybrid people who click cartoons and that builds cities overnight. the empire state building was built in a YEAR.

DO you Want ot know the real fucking reason all of this is happening?!?!?!?!?

<https://thedecisionlab.com/biases/commitment-bias> Constancy Bias.

People make a dumb ass decision. They make a rash judgement in the moment cause they dont know better.

People block each other, and it doesnt make sense. The block button exists for protecting your mental health.

But people use it on everyone: hahah block this clown block that clock

you dont even know what im going to say so why would you just not want to hear anytihng?!?!?

Look i made a DUCK cartoon and it took me 40 hours but little 3 year olds are gonna learn PHYSICS.

i dont know shit. i made mistakes. renas ego defense wall of DOOM goes up. why does it exist? her parents probably beat her to death and now im the one who likes oh cool i sent a girl a salty text

when i was high and now she tells the world im chris brown beating up children and raping babies

<https://blakemasters.tumblr.com/post/21169325300/peter-thiels-cs183-startup-class-4-notes-essay>.

- this says competiton is for losers. if people fiht over shit they think its worth shit but its actually just taking from each other. theres infinite things why not go there.

court: find another girl then ass wipe. we dont care and we dont like you

therapist: yeah... you need serious help bro

adnan: arent you on my side

therapist: its funny to hate you actually

ok look, this is our brain. things that happen fall into the crevices. we dont respond to what happens now. we respond to what happens 10 years ago when our brain was forming and shit.

court: youre gay and annoying.

adnan: why do i bother..... is nothing sacred?

No one tries to unify the world. They just stick to their cliques and their gay exclusivity.

No one tries to evaluate anything on its actual merit. They just want what other girls want. cause they dont trust antything not even themselves they just want to feel anxiety cause competiton.

We are atoms. we are electrons bouncing off the walls. and we can do anything. The world is 100 years old, we know jack shit, and humanity will last 200 million years like the dinosaurs so we are the fore runners of an INFINITE CIVILIZATION and all problems will be solved eventually. so we dont have to try hard. we dont have to be dick heads. we can have fun and experiment and laugh and dick around instead of just being in a groove

Judge: i'm holding you in contempt of court

rena: ew. i never dated this person. so glad i got out of that relationship

court: wow good for her. she escaped a bad person..

----- after lunch break-----

judge: was any of this a big deal?

adnan: no

judge: did rena even like you?

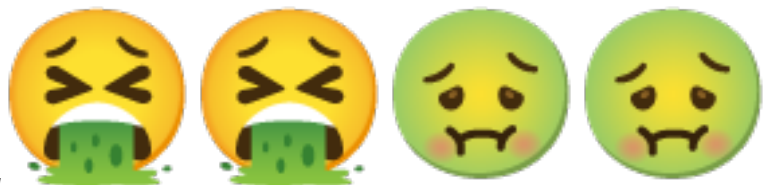

adnan: i think we were both lucky. in feb we hung for 5 days in a row.. idk. Rena dated people for like 10 years and i only had short flings cause im a nerd and they grow up slow and i just liked solving puzzles. so i forgot that 99% of a relationship is just all fun, and 1% is the serious parts. it was just misinterpretation. i type too fast and she interprets it as "omg hes obsessed with me thats a mental illness" mother fucker the psychology indsutry is like 100 years old and we are like 10 million years from figuring out anything. do you think nature fucking puts illness inot 25% of people who take fucking medications to treat some shit? Maybe the science is actually mostly people just projecting their own beliefs onto the world. and then others agree because oh well everyone else agrees.

-----

Yoda said : fear leads to hate. hate leads to dismissing someone for arbitrary reasons.

what causes fear? pandemic. also being different.

court: ew

rena: *proejctile vomits all over the ceiling*

court: off with his head!

---

judge: why do you think people ignore each other?

---

Judge: do you think rena's friends ever mislead her?

adnan: no. they just wanted whats best for her.

Judge: do you think you were what's best for her.

adnan: I think I could have been, but Consensus is absolute

Judge: do you think you are what's best for her now?

adnan: consensus is absolute.

rena: ew

court: this guy is fucking retarded

court: off with his head!

Judge: Do you think your desire to understand made things boring?

adnan: yeah

Judge: do you think one way is better than the other?

adnan: no.

judge: do you still want to fix the situation?

adnan: doesn't need it

judge: could you ever fix it?

adnan: not by myself.

rena: ew

court: this guy is fucking needy

court: off with his head!

Judge: do you think rena should have worked with you more?

adnan: no, she did until she couldn't. i think it was just the pandemic

Judge: even so, do you think it's worth bringing up again?

adnan: not really

Judge: do you think rena came from a culture that doesnt like outsiders?

adnan: maybe

rena: ew

court: this guy is fucking anti semite

court: off with his head!

Judge: do you think that means you should have been extra careful?

adnan: yeah

Judge: why werent you?

adnan: ...

rena: ew

court: this guy is fucking narccisist

court: off with his head!

judge: do you think you can forgive rena and her friends?

adnan: yeah. i never was mad at them or disliked them.

judge: why did you seem angry to them?

adnan: i was trying to control reality, not them.

judge: why?

adnan: in computers you can customize everything. always can undo /redo. edit. you can rewrite the rules. you have to. thats good.

judge: do you think thats healthy?

adnan: no

rena: ew

court: this guy is fucking ego-maniac

court: off with his head!

judge: do you think anyone was ever afraid of you?

adnan: i hope not. I always thought of myself as calvin and hobbes.

court: he has no empathy

adnan: no one has empathy over wifi. technology isn't designed right. its new. and our brain's design is from millions of years ago

court; everyone knows that retard.

rena: ew

court: this guy needs to get over it.

court: off with his head!

judge: do you think you're somehow profound or original at all?

adnan: no

judge: do you think trying to be profound made you retarded and annoying

adnan: yeah

rena: ew

court: this guy has no self awareness.

court: off with his head!

Judge: do you think parents should control or influence their kids?

adnan: emphatically no

Judge: Who should raise kids?

adnan: Nature

Judge: isnt that how you became retarded?

adnan: yeah. Parent's should provide guard rails, but not direction.

Judge: Do you think they did a good job of that

adnan: yeah

Judge: do you think anyone could have controlled you throughout life?

adnan: no. I wish they could.

rena: ew

court: this guy is a weirdo

court: off with his head!

Judge: Do you think the government is to blame for all this?

adnan: no

Judge: but they didnt handle the pandemic well. They didn't legalize psychedelics. They don't subsidize therapy.

adnan: still. Can only blame self.

judge: what is the government?

adnan: just guard rails

Judge: is that enough?

adnan: no. "guardrails can't get you to where you want to go." - rich hickey

Judge: Do you think people care about a programmre's thoughts

adnan: rich wasnt a programmer. he was a thinker, who happend to write stuff down sometimes. but no. thoughts are boring.

rena: ew

court: this guy is too into computers

court: off with his head!

Judge: so the reason all this happened, was because your thoughts were boring for rena

adnan: yeah

Judge:

Judge: Is there any value to thinking?

adnan: only actions have meaning. if right thought makes right action, thats good.

Judge: nothing else?

adnan: maybe in a 100 years, thoughts and experiences can be saved and replayed from storage.

Judge: Who gives a fuck?

adnan: then people can relive other's experiences. and they can see what happened. and so no one will have to face the void alone.

Judge: so?

adnan: people will understand each other and reality better. Much better. Infintely better.

Judge: why the fuck should i care?

adnan: all conflict is because our thoguhts betray ourselves, through lack of understanding.

rena: ew

court: this guy is delusional

court: off with his head!

Judge do you think people dont understand themselves?

adnan: i dont know. I think, we think we understand. Feynman said " i only understand what i create"

Judge: do you think you overcompensate other weaknesses by focusing thought world?

adnan: yeah

Judge: doesnt that turn girls off

adnan: yeah

Judge: Do you think people need each other?

adnan: they feel they do

judge: are feelings real?

adnan: only if you act on them

Judge: so women can need men

adnan: yeah, its okay.

rena: ew

court: this guy is trash

court: off with his head!

Judge: do men need women?

adnan: they can't. if they do, it repels.

Judge: is that bad?

adnan: no, its biology. women carry children. children need their parents. wives need their husband.  
their husband must be needless.

court: Isn't that what real maturity is?

adnan: yes

rena: ew

court: this guy is gay and loves dick

court: off with his head!

judge; why werent you more mature? more needless? more carefree?

adnan: procrastination. choice. lack of intention. people want short-happiness when they cant find meaning.

Judge: so rena gave you short-term happiness

adnan: yeah, people can only give each other short term happiness

Judge: what gives you meaning?

adnan: hobbies, working on cool stuff, doing the right thing, or knowing why its right

rena: ew

court: this guy should kill himself

court: off with his head!

Judge: so rena thought you were abusive and draining

adnan: yeah, thats how she felt.

Judge: were you?

adnan: well, on my end, i was just falling into relying on someone. But i could have been more invested in hobbies

rena: ew

court: this guy is a mysognist

court: off with his head!

Adnan: i didnt realize how sensitive girls were. or how i was. or maybe peoples friends.

Judge: shouldnt you have taken that into account?

Adnan: yeah

Judge: what do you think god is?

adnan: cause and effect. science. love. understanding. devotion

Judge: do you think westerners want devotion?

adnan: no its an eastern concept. old-world

rena: ew

court: this guy is a trump-supporter

court: off with his head!

judge: do you think rena wants an annoying and retarded boyfriend ever again?

adnan: no

judge: do you think she wants someone who has outgrown their counter-productive anti-patterns at 12 or 22, not 32?

adnan: yeah

judge: do you think its a better love story for her kids and friends to just meet, everything works, and they live happily ever after?

adnan: yeah.

rena: ew

court: this guy is a libtard

court: off with his head!

judge: do you think new york will appreciate anything about this?

adnan: i proved an individual cannot really do anything to affect someone in another city. so theres nothing to be afraid of.

rena: ew

court: we dont care.

court: thats retarded

therapist: adnan, you are your only enemy. do not blame others for your mistake anymore.

rena: ew

court: this guy needs therapy

court: off with his head!

judge: is there any other reason you come across as a retard adnan?

adnan: i watched lots of cartoons as a kid. they say absolutes to inspire strong emotions so you like the tv show more.

judge: do you think you can learn from reality not fantasy and anime?

adnan: yeah

rena: ew

court: this guy needs to get laid

court: off with his head!

Judge: do you think there is wisdom in the status quo?

adnan: yes. it exists for a reason. 95% of people agree on most stuff. and they're mostly correct enough. extremism bad. moderation good.

Judge: do you think theres any value in contrarian opinons or actions anymore?

adnan: not in relationships. only in very specific areas with lots of evidence and only if the upside is more than the risk.

Judge: Don't you think everyone knows this?

adnan: yeah

rena: ew

court: this guy is creepy and batshit insane

court: off with his head!

judge: so fear is why communication broke down. but the initial genesis of the fear was a reaction to your retarded behavior

adnan: yeah..

judge: why did you do stupid shit?

adnan: i feared losing her.

therapist: thats why you lost her. adnan you must channel your fear into a constructive activity.

Adnan: guys can handle a little more shit. so its ok if a girl is against you. but a guy has to be a steady rock.

rena: ew

court: this guy has BPD

court: off with his head!

Judge: what do you think a good boyfriend is like?

Adnan: Presence. No control. Just natural orbits like two moons orbiting saturn.

Judge: Do you think girls have any trouble meeting a great dude in new york?

adnan: no, my sister met someone and got married the moment she wanted to. took a week

Judge: Do you think guys have any trouble meeting a great girl in new york?

adnan: no, probably just takes 2-3 weeks.

Judge: do you think the world is good enough?

Adnan: yeah

Judge: do you think the world needs anything from you

rena: ew

court: this guy has Main-character syndrome

court: off with his head!

adnan: no

Judge: so fear corrodes a relationship?

adnan: yeah

Judge: Did rena ever say you made her feel safe?

adnan: yeah

Judge: do you think thats every girl's 1st priority in a relationship

adnan: yeah

Judge: do you think you can prioritize her feeling safe, over everything else?

adnan: yeah

adnan's friends: even we hate him too.

court: we dont care

court: we hate you

court: off with his head!

Judge: why did you like rena

adnan: chemistry. smart. funny.

judge: do you think everyone in this court room learned these lessons at 10 years old?

rena: ew

court: this guy has to grow up!

court: off with his head!

adnan: yes

judge: why didnt you?

adnan: didn't have to. developed other compensatory skills.

judge: do you think those have any merits in a relationship or in life?

adnan: not really.

rena: ew

court: this guy is a trainwreck!

court: off with his head!

judge: do you think thats the source of all maladaptation?

adnan: yes.

Judge: adnan did you stalk or spy on rena or her friends?

adnan: no i used rocketreach and python to parse publicly available data

court: isnt that invasion of privacy?

adnan: mabye, yeah. i learned it at a nonprofit doing business development and growth.

rena: ew

court: case closed. hes retarded

court: off with his head!

judge: do you think understanding any of this is a good thing?

adnan: no, its better to not have it at all.

rena: ew

court: this guy is bad for humanity!

court: off with his head!

Judge: Why do you think any of this happened?

adnan: procrastination mostly.

Judge: why do you do that?

adnan: poor sleep sometimes.

Judge: can you fix that?

adnan: yeah i got a bed cooler. increases deep sleep by 20%

court: can you fucking use it bro?

adnan: yeah, i just left it in texas

Judge: can you go get it and just forget all this?

adnan: sure

rena: ew

court: this guy is a wordcel incel idiot!

court: off with his head!

judge: why do you think you're like that

adnan: well i was the class clown as a kid. my parents showed me love with food. also in video games kids talk trash .

judge: well you're a grown adult, so these behaviors come across as highly inappropriate and annoying as fuck. possibly worse

adnan: umm shit.

rena: ew

court: this guy should get a grip!

court: off with his head!

judge: do you think maybe you're just socially lazy? why dont you have some beer and talk to chicks?  
or use bumble?

adnan's friends: just get wasted bro. then slobber on 10 chicks at every bar. 1 out of 100 is all you  
need!

adnan: um ok.. pulls out bumble .. 10 matches after using 10 boosts..

rena: ew. pulls out bumble. 10,000 matches. "hehe i win"

adnan: *sobs uncontrollably*

rena: ew

court: this guy is a total loser!!

court: off with his head!

adnan's friends: bro just use these AI photo editors! bitches love that shit!

adnan: but then you get fake girls.

court: this is not a strategy session!

Forensic Psychologist: perhaps bengalis are wired differently. they just like the same person forever.  
thats why they have overpopulation

court: ew

adnan's friends: ew, thats gross

judge: well, does the defense have anything left to say?

adnan: no, let the defense rest.

judge: then i sentence you to 100 years of limerance and being a retard. You must never go to new

york again. or talk to anyone there.

adnan: sure.

rena: ew

rena's friends: thats not healthy! run away!

court: off with his head!

Judge: Do you think technology can be designed to be more humane?

adnan: yeah

Judge: do you think civilization can be redesigned to be more humane?

adnan: yeah

Judge: are you the person for that?

adnan: not alone. has to be everyone. 100% of people.

Judge: ...

rena: ew

court: this guy should step on a lego!

court: off with his head!

Judge: do you think rena was more fair to you than most?

adnan: yeah

Judge: can you repay the favor by doing the same now?

adnan: yeah

Judge: is that a good enough ending for you

adnan: best i can do

Judge: case closed.

rena: ew

court: this guy has no chill!

court: off with his head!

judge: Do you think anything else played a role

adnan: well my job is to think. and to solve problems. im a fish, and thoughts are water. so if there's a problem between me and my friend, i want to solve that before work.

court: how long do you spend debugging other people's problems

adnan: sometime 20 hours a day, 40 hours a weekend

court: do you think that makes you different or special?

adnan: no.

rena: ew

court: this guy keeps repeating same shit!

court: off with his head!

court: what do you think the easiest solution to all this could be?

adnan: not caring. just be fun. relationships are only for fun. thats not bad.

rena: ew

court: this guy is boring as fuck!

court: off with his head!

adnan: i wish i had gone bar hopping more, and talked to girls more instead of reading and writing.

court: why's that?

adnan: i think rena would have liked me more. it worked the first time. i think most girls like competing for their loves attention.

court: is that cynical?

adnan: sure.

court: do you want to be cynical?

adnan: no. i want optimism, realism and focus.

rena: ew

court: this guy would be a bad father!

court: off with his head!

Judge: does the plainiff have anything else to say?

rena: ew

Judge: anything else?

rena: ew

court: in summary, what did you learn?

adhan: everything is just for fun. dont take anything serious. do less. think less.just be funny. like yoda.

rena: ew

court: this guy has no fashion sense

court: off with his head!
